

## AMENDMENT

### Amendments to the Claims:

Please amend claims 1, 18, 34, and 51 and cancel claims 7, 24, 30-32, 40, 57, and 68, all as shown below. All pending claims are reproduced below, including those that remain unchanged.

1. (Currently Amended) An interactive tool [[for]] that can configuring a portal, comprising:

a first user interface operable to define and/or manage the portal;

a second user interface operable to define and/or manage entitlements for at least one portal resource; and

wherein the portal [[can]] operates to include a desktop and associated desktop resource that includes at least one of the following portal resources: ~~a desktop~~, a book, a page, a portlet, a shell, a look and feel, and a layout;

wherein the entitlement is based on a user role.

2. (Original) The interactive tool of claim 1, further comprising:

at least one user interface operable to define and/or manage one of: a desktop, a book, a page, a portlet, a shell, a theme, a menu, a look and feel, and a layout.

3. (Original) The interactive tool of claim 1 wherein:

a desktop can be defined based on a template.

4. (Original) The interactive tool of claim 1 wherein:

a desktop is a user-specific view of a portal.

5. (Original) The interactive tool of claim 1, further comprising:

a third user interface operable to define and/or manage a desktop; and

wherein the third user interface can render a preview of the desktop.

6. (Original) The interactive tool of claim 1 wherein:  
the portal can be depicted graphically as a hierarchy of the at least one portal resources.
7. (Cancel).
8. (Original) The interactive tool of claim 1 wherein:  
the first user interface includes a hierarchy browser.
9. (Original) The interactive tool of claim 1 wherein:  
an entitlement determines what capabilities are available to a portal visitor for the at least one resources.
10. (Cancel).
11. (Original) The interactive tool of claim 1, further comprising:  
a third user interface operable to define and/or manage content; and  
wherein content is part of a virtual content repository (VCR).
12. (Original) The interactive tool of claim 11 wherein:  
the third user interface allows a user to modify the VCR by dragging and dropping graphical objects representing VCR nodes.
13. (Original) The interactive tool of claim 1 wherein:  
a portlet can dynamically present content.
14. (Original) The interactive tool of claim 1, further comprising:  
a fourth user interface operable to define and/or manage personalization of the portal.
15. (Original) The interactive tool of claim 14 wherein:  
the fourth user interface is operable to define and/or manage a content placeholder.

16. (Original) The interactive tool of claim 14 wherein:

the fourth user interface is operable to define and/or manage a content selector.

17. (Original) The interactive tool of claim 1, further comprising:

a fifth user interface operable to define and/or manage delegated administration.

18. (Currently Amended) An interactive tool ~~[[for]]~~ that can configure a portal, comprising:

a first user interface operable to define and/or manage the portal;

a second user interface operable to define and/or manage entitlements for at least one portal resource;

wherein the portal ~~[[can]]~~ operates to include a desktop and associated desktop resource that includes at least one of the following portal resources: ~~a desktop~~, a book, a page, a portlet, a shell, a look and feel, and a layout; and

wherein an entitlement determines what capabilities are available to a portal visitor for the at least one resources;

wherein the entitlement is based on user role.

19. (Original) The interactive tool of claim 18, further comprising:

at least one user interface operable to define and/or manage one of: a desktop, a book, a page, a portlet, a shell, a look and feel, and a layout.

20. (Original) The interactive tool of claim 18 wherein:

a desktop can be defined based on a template.

21. (Original) The interactive tool of claim 18 wherein:

a desktop is a user-specific view of a portal.

22. (Original) The interactive tool of claim 18, further comprising:

a third user interface operable to define and/or manage a desktop; and

wherein the third user interface can render a preview of the desktop.

23. (Original) The interactive tool of claim 18 wherein:

the portal can be depicted graphically as a hierarchy of the at least one portal resources.

24. (Cancel).

25. (Original) The interactive tool of claim 18 wherein:

the first user interface includes a hierarchy browser.

26. (Cancel)

27. (Original) The interactive tool of claim 18, further comprising:

a third user interface operable to define and/or manage content; and  
wherein content is part of a virtual content repository (VCR).

28. (Original) The interactive tool of claim 27 wherein:

the third user interface allows a user to modify the VCR by dragging and dropping graphical objects representing VCR nodes.

29. (Original) The interactive tool of claim 18 wherein:

a portlet can dynamically present content.

30. (Cancel).

31. (Cancel).

32. (Cancel).

33. (Original) The interactive tool of claim 18, further comprising:

a fifth user interface operable to define and/or manage delegated administration.

34. (Currently Amended) A method for configuring a portal, comprising:  
providing a first user interface operable to define and/or manage the portal;  
providing a second user interface operable to define and/or manage entitlements for at least one portal resource; and  
wherein the portal [[can]] operates to include a desktop and associated desktop resource that includes at least one of the following portal resources: ~~a desktop~~, a book, a page, a portlet, a shell, a look and feel, and a layout;  
wherein the entitlement is based on a user role.
35. (Original) The method of claim 34, further comprising:  
providing at least one user interface operable to define and/or manage one of: a desktop, a book, a page, a portlet, a shell, a look and feel, and a layout.
36. (Original) The method of claim 34 wherein:  
a desktop can be defined based on a template.
37. (Original) The method of claim 34 wherein:  
a desktop is a user-specific view of a portal.
38. (Original) The method of claim 34, further comprising:  
providing a third user interface operable to define and/or manage a desktop; and  
wherein the third user interface can render a preview of the desktop.
39. (Original) The method of claim 34 wherein:  
the portal can be depicted graphically as a hierarchy of the at least one portal resources.
40. (Cancel).
41. (Original) The method of claim 34 wherein:  
the first user interface includes a hierarchy browser.

42. (Original) The method of claim 34 wherein:  
an entitlement determines what capabilities are available to a portal visitor for the at least one resources.
43. (Cancel)
44. (Original) The method of claim 34, further comprising:  
providing a third user interface operable to define and/or manage content; and  
wherein content is part of a virtual content repository (VCR).
45. (Original) The method of claim 44 wherein:  
the third user interface allows a user to modify the VCR by dragging and dropping graphical objects representing VCR nodes.
46. (Original) The method of claim 34 wherein:  
a portlet can dynamically present content.
47. (Original) The method of claim 34, further comprising:  
providing a fourth user interface operable to define and/or manage personalization of the portal.
48. (Original) The method of claim 47 wherein:  
the fourth user interface is operable to define and/or manage a content placeholder.
49. (Original) The method of claim 47 wherein:  
the fourth user interface is operable to define and/or manage a content selector.
50. (Original) The method of claim 34, further comprising:  
providing a fifth user interface operable to define and/or manage delegated administration.

51. (Currently Amended) A machine readable medium having instructions stored thereon that when executed by a processor cause a system to:

provide a first user interface operable to define and/or manage the portal;

provide a second user interface operable to define and/or manage entitlements for at least one portal resource; and

wherein the portal ~~[[can]] operates to include a desktop and associated desktop resources that includes~~ at least one of the following portal resources: ~~a desktop~~, a book, a page, a portlet, a shell, a look and feel, and a layout;

wherein the entitlement is based on a user role.

52. (Original) The machine readable medium of claim 51, further comprising instructions that when executed cause the system to:

at least one user interface operable to define and/or manage one of: a desktop, a book, a page, a portlet, a shell, a look and feel, and a layout.

53. (Original) The machine readable medium of claim 51 wherein:

a desktop can be defined based on a template.

54. (Original) The machine readable medium of claim 51 wherein:

a desktop is a user-specific view of a portal.

55. (Original) The machine readable medium of claim 51, further comprising instructions that when executed cause the system to:

provide a third user interface operable to define and/or manage a desktop; and

wherein the third user interface can render a preview of the desktop.

56. (Original) The machine readable medium of claim 51 wherein:

the portal can be depicted graphically as a hierarchy of the at least one portal resources.

57. (Cancel).

58. (Original) The machine readable medium of claim 51 wherein:

the first user interface includes a hierarchy browser.

59. (Original) The machine readable medium of claim 51 wherein:

an entitlement determines what capabilities are available to a portal visitor for the at least one resources.

60. (Original) The machine readable medium of claim 51 wherein:

an entitlement is based on a user role.

61. (Cancel)

62. (Original) The machine readable medium of claim 51 wherein:

the third user interface allows a user to modify the VCR by dragging and dropping graphical objects representing VCR nodes.

63. (Original) The machine readable medium of claim 51 wherein:

a portlet can dynamically present content.

64. (Original) The machine readable medium of claim 51, further comprising instructions that when executed cause the system to:

provide a fourth user interface operable to define and/or manage personalization of the portal.

65. (Original) The machine readable medium of claim 64 wherein:

the fourth user interface is operable to define and/or manage a content placeholder.

66. (Original) The machine readable medium of claim 64 wherein:

the fourth user interface is operable to define and/or manage a content selector.

67. (Original) The machine readable medium of claim 51, further comprising instructions that when executed cause the system to:

provide a fifth user interface operable to define and/or manage delegated administration.

68. (Cancel).
